Subject: Somerville Green Line Extension
Date: Thursday, September 08, 2011 9:30:57 AM

To Whom It May Concern at Boston MPO Staff:
I am utterly dismayed and disappointed to hear of the latest delay to the planned green line extension. Somerville has more than our fair share of Greater Boston's rail lines and only one subway station to show for it. We have been waiting patiently for this development since I moved to Somerville 15 years ago. Investing infrastructure to aid the growth of our area is also essential in this economic climate. I strongly urge you to reconsider any delay of this project.
Thank you for your time.
Sincerely,
Emily Arkin
