Subject: LRTP Comment - Simple Financial Informatin
Date: Tuesday, September 13, 2011 9:51:53 AM

Good day.
I request some simple tables in the finance chapter that describe the big picture. Emphasis on simple. That is, how much money comes into the state from the federal government in total, and how much do we collect at the state level?
And where does it all go? How much is spent at the state's discretion, how much goes to the MPOs? Please include historic information. Is the share being distributed through the MPOs increasing or decreasing?
And while Chapter 90 funds are not part of the MPO's purview, it would be useful for local communities to see the historic trends for that as well.
Thanks.
