

Over the past decade or more, Franny Osman has been RTAC representative from the planning region subgroup MAGIC and from her Town of Acton, where she has served on several boards including the Select Board, Transportation Advisory Committee, Commission on Disabilities, housing groups, and the Lowell Regional Transit Authority. Franny cares deeply about equity and accessibility to safe, convenient transportation, and about the need for easy travel between Regional Transit Authorities as well as within more dense population hubs. She is excited about future improvements such as electrification of rails and connectivity between regions. Franny is an enthusiastic rider on the T and on Amtrak.
